In re: JHT Ventures, Inc.
KULF(AM), Bellville, Texas
Facility Identification Number: 48653
BP-20091207ACW (Construction Permit)
BL-20101019ADB (License Application)
Program Test Authority

Dear Ms. Hollan:

This is in reference to the above captioned license application and the request for program test authority for station KULF(AM), Bellville, Texas.

Authority is granted KULF(AM) to conduct daytime program tests in accordance with Construction Permits BP-20091207ACW and Section 73.1620 on 1090 kHz with a daytime nominal power of 1.0 kilowatts. Program tests are authorized with a daytime antenna input power of 1.08 kilowatts (common point current 4.66 amperes).

A preliminary review of the application indicates that an amendment must filed to: (1) provide the make and type of coaxial cable used in the sample system, and (2) specify the antenna used for non-directional proof and how it was isolated from other tower.

Program tests should be conducted with the directional antenna system adjusted in accordance with the enclosed specifications. Please advise this office of any discrepancies noted in the enclosed specifications. Further action on the subject application will be withheld for a period of thirty (30) days from the date of this letter to provide an opportunity to respond. Failure to respond within this time period will result in the dismissal of the application pursuant to 47 C.F.R. § 73.3568(b). This authority expires on **March 22, 2011**.

Sincerely,

Son Nguyen
